Modelling of high-level-functions and on-board-functions

Simon Steurer

Deutsche Bahn

Modus operandi

1. Block Definition Diagram with main-functions and sub-functions

2. Internal Block Diagram for block 'High Level Functions'

   Just overview; NOT the exact internal operations

3. Internal Block Diagrams for main-functions with sub-functions

   Just overview; NOT the exact internal operations

Modus operandi

4. Assigning of on-board-functions to high-level-functions

5. Add to Block Definition Diagram

6. Next step: Internal Block Diagrams for high-level-functions with on-board-functions?

Assigning of on-board-functions

- Relation between mode and high-level-function (according to § 4.5)
- Reed belonging paragraphs
- Reduce double assignments

Modelling

Colours:

- 'High Level Functions' for retrievability
- Double assignments

Double assignments:

- Different blocks; one association
- One Block; multiple associations
